

Website Accessibility

[The Website Accessibility Standard](#)

The State of Iowa's Enterprise Standard on Website Accessibility was published February 12, 2012, to ensure that the widest possible audience, including persons with disabilities, is reached online. The Website Accessibility User Group was created to assist State of Iowa agencies in complying with the standard. The purpose of the user group is to:

- Discuss compliance requirements
- Build guidelines for agencies
- Develop and publish tips and tricks; and best practices
- Share information
